Higher Secondary (12th) from MP Board at New Wisdom Higher Secondary School, 2019.

HOBBIES

- Gaming
- Gardening
- Listening Music
- Traveling (Bike)

BRIEF OVERVIEW

I am a dedicated and detail-oriented web developer with a strong foundation in full-stack development. I enjoy problem-solving and take a methodical approach to decision-making. I am eager to work in an organization where I can expand my skills while contributing to meaningful projects. Having collaborated with different teams on various projects, I thrive in a team environment but can also work independently when required.

TRAININGS | WORKSHOPS

Full Stack Development Workshop :

The workshop, conducted during the 4th semester of my graduation at the Sagar Institute of Science and Technology, lasted six months and covered full-stack website development and deployment.

Technology learned : HTML, CSS, JavaScript, Node.js, MongoDB.

PROJECTS

1. ONLINE EXAMINATION PORTAL [Major project 01]

Team Size: 4

Description: The examination portal provides a platform for faculty to conduct MCQ-based tests and manage students (add/remove, track results, etc.). Students can take tests and easily view their results.

Technology used: HTML, CSS, JavaScript, SQL, MySQL.

2. CURATEX (Pinterest-clone)

Description: CURATEX is a Pinterest-like web app where users can register, log in, upload, search, and filter posts. They can also save posts and edit profiles. Future features will include post management and commenting.

Technology used: HTML, CSS, JavaScript, Express.js, MongoDB.

- Weather App, To-Do App, etc. using HTML, CSS, JS, Express.js, MongoDB.

EXPERIENCE

Company - Deep Roots Expert Solutions Private Limited

Participated in a digital marketing internship offered by the Madhya Pradesh government's Seekho Kamao Yojna program. I gained a number of skills throughout the internship, but I largely helped with website optimization and creating SCO-friendly websites. It was a pleasure to work in a friendly environment at Deeproots.

Company - Webmak

In November and December 2024, I worked as a freelancer for Webmak. My primary responsibility was to create the front end of static websites or individual pages of websites. When given the chance, I also helped with full-stack projects.
